

My name is Robin Kruckenberg and I was the chair person in charge of the George-Little Rock After Prom party. I am writing this letter in reference to Hypnotist Terry Gahm. Our school has had a hypnotist for the prom for many years. Last year we were unable to book Terry as he was booked up. We have had many hypnotists in the past and we have had Terry twice. We recommend him highly he is very good. In the past some of the hypnotist have asked questions to the kids who were under and they answered with some very bad language. Terry asked many of the same questions as the others but in a very different manner where we didn't get the bad language and the parents were very happy about that. He put on a very clean show that was appropriate for a school group. We as a school hope to get him again this year. He is great to work with friendly and considerate. If you have any questions feel free to give me a call.
